

Meridien Terrace Facade

Meridien -Terrace Elevation - GrannoSorrento finish

The Meridien - 47.6 squares

Space, style and symmetry defines this home. Our top of the range and largest home is built for modern living. As you enter thru the generous and wide front door discover the space and style created by the vaulted ceilings to the Formal Living and Dining rooms. A dedicated Media Room inspires hours of entertainment.

The Grand staircase divides the study, laundry and bathroom zone on the lower level.

Casual living and dining is catered for by the generous spaces at the rear, along with an expansive kitchen and AI Fresco dining area.

On level one, the Master Suite is complete with dressing robe, luxury ensuite and private terrace.

The double bedrooms 2, 3 and 4, along with additional living space in the upstairs leisure room complete the dream that is Meridien.
